Dear Friends,

This year’s annual report commemorates QueensCare’s 15 years as an organization, beginning in 1998 with the vision of Arthur Barron and J.J. Brandlin for a healthcare charity to care for the uninsured and underserved people of Los Angeles County.

Much as the dove overlooks the city skyline on the cover of this report, for the last 15 years, QueensCare has watched over and cared for the underserved residents of Los Angeles County. In this report, we look back to celebrate our first 15 years of achievements. Developing mobile dental services for school children; providing healthcare services; awarding scholarships and loan assistance to low-income students entering a healthcare profession; participating in research promoting mental wellness in the community; and much more.

As we look to the future, we see that we are only at the beginning of our journey. There are still many challenges we face in providing accessible healthcare to those in need. We will use our resources and past successes to help us face these needs and meet them with effective solutions. We will continue to take advantage of technological advances, adapt to legislative changes and share compassion and healing through the hands of our staff.

This year’s annual report also marks a transition in the presentation of this and future annual reports. In an effort to be more “green”, we have reduced the size of the report and, in the future, we hope to transition to an electronic format, eliminating paper altogether. Many of our past annual reports have been posted on the queenscare.org website and we invite you to visit the site and peruse them at your leisure.

We are excited to celebrate our 15 years with you through this report and we thank you for your continued support of QueensCare.

Sincerely,

Msgr. Jeremiah Murphy, 
Chair, Board of Directors

Barbara Brandlin Hines, 
President & Chief Executive Officer

Our Mission

As a faith-based organization, QueensCare strives to provide, directly and with others, accessible healthcare for uninsured and low-income individuals and families residing in Los Angeles County.
June 12, 1998
Through the vision provided by Arthur Barron and J.J. Brandlin, Queen of Angels-Hollywood Presbyterian Medical Center, originally founded and sponsored by the Franciscan Sisters of the Sacred Heart, sold the hospital operations and created a new healthcare charity to care for the uninsured working poor of Los Angeles County. They named it QueensCare. QueensCare retained many healthcare services formerly associated with the hospital, including QueensCare Health & Faith Partnership (formerly the Greater Hollywood Health Partnership) and the Franciscan Clinics.

1999
QueensCare’s Mobile Vision program began providing vision screenings and glasses at no cost to children of LAUSD middle schools. Since then, about 31,000 pairs of glasses have been given out to children at an average of 25 schools a year.

2001
QueensCare began a collaborative program with LAUSD and the Ostrow School of Dentistry of USC to provide mobile dental services to elementary schools in central LA. The program started with one fully equipped mobile dental van, funded by the Everychild Foundation, and treated approximately 300 children. The program now has four mobile dental vans through generous gifts from St. Joseph’s Health Support Alliance and the W.M. Keck Foundation. As part of the USC dental student’s clinical rotation, the program has provided dental care to over 26,000 children since 2001.

2002
Much like a dove pushes its chicks from the nest to fly on their own, QueensCare severed its legal ties to the Franciscan Clinics, now named QueensCare Health Centers (QHC), to allow QHC to be its own separate and independent charitable entity. Shortly thereafter, QueensCare Health Centers applied for and was granted status as a Federally Qualified Health Center (FQHC). The organizations continue to share similar missions and have a close partnership to this day.

2003
QueensCare commissioned an original painting by Corinne Cortinas-Maffin through Smith Asbury, Inc. to capture what we do, who we are and the diverse neighborhoods we serve. The artwork continues to be used in community outreach to this day.

2005
The Gene & Marilyn Nuzziard Scholarship and Loan Repayment Fund was established to assist outstanding, low-income students studying to enter a healthcare profession. Additionally, the program helps professionals who work in medically underserved areas pay off their student loans. A total of $1,713,203 in scholarships and loan repayment awards have been given to 226 recipients since inception of the program.

2006
The Queen of Angels Chapel inside the Hollywood Presbyterian Medical Center was refurbished thanks to a generous donation from Eleanor Von Der Ahe. Her gift allowed the purchase of two statues, new vestments and the Stations of the Cross. A dedication plaque in the chapel reads: “Chapel renovation gift of Eleanor Von Der Ahe for Cara Curtain-Pistoll.”

2008
QueensCare was awarded an official Commendation by the Los Angeles County Board of Supervisors in recognition of its commitment over the previous 10 years to providing quality, accessible healthcare for uninsured and low-income working individuals and families.

2009
Terry Bonecutter retired from his position as President & CEO of QueensCare after 10 years, passing the reins to Barbara Brandlin Hines, its then Executive Vice President, and marking the beginning of a new era for the organization.

2010
Critical national healthcare legislation, the Affordable Care Act (ACA), was passed with new requirements to make health insurance available to low-income Americans. The ACA supports QueensCare’s mission of providing accessible healthcare for all Angelenos and affects how QueensCare operates, as many of our beneficiaries will now have access to healthcare.

2013
QueensCare Health & Faith Partnership (QHFP) participated in a five-year study of how best to promote mental wellness through improving community and healthcare services. Co-authored by QHFP’s then Director, Elizabeth Dixon, PhD., the findings of the study were published in the Journal of General Internal Medicine in an article titled “Community-Partnered Cluster-Randomized Comparative Effectiveness Trial of Community Engagement and Planning or Resources for Services to Address Depression Disparities.”
15 Years of Care

*Mobile Dental, Mobile Vision and Inpatient Programs*

QueensCare brings healthcare to the place where kids spend the most time outside of home – at school. Children in poor health have more missed school days and a reduced ability to learn, with life-long effects. State-of-the-art mobile dental trailers are parked in the school parking lot for two to three months at a time, while QueensCare staff, USC faculty and dental students from the pediatric dentistry program provide critical services to children in LAUSD elementary schools. During the summer, the Mobile Dental Program opens up to the community and provides services to children up to the age of 18.

QueensCare Mobile Vision Program also travels to middle schools to help children with vision problems. Initially, children are screened for vision acuity. Those who show deficiencies in their vision are examined by our optometrists and given glasses at no cost to the student. Last year, the Mobile Vision Program hosted the first annual summer program where they provided 50 vision exams and gave out 45 pairs of glasses.

Finally, 353 residents of Los Angeles received inpatient care, valued at $4,469,878 through QueensCare’s Inpatient Program contracts with six local nonprofit hospitals.

### Inpatient Services

**TOTAL: $4,469,878**

- **White Memorial Medical Center:** $639,757
- **California Hospital Medical Center:** $812,944
- **Cedars-Sinai Medical Center:** $330,007
- **Glendale Memorial Hospital and Health Center:** $297,308
- **Good Samaritan Hospital:** $1,264,401
- **St. Vincent Medical Center:** $1,125,461
- **St. Joseph Hospital:** $639,757

In the last year, 13,930 students from 26 schools were screened for vision problems, 2,983 students were given eye exams, and 2,357 pairs of glasses were given out.

In 2013, 4 mobile dental vans visited 22 schools in LAUSD, performing 23,262 procedures and treating 1,327 children.

“We’ve incorporated the iPad and an eye exam app into our program. The kids think it’s cool and as a result, we’ve streamlined our equipment to reduce costs and prevent injuries.”

—ESTHER CHEN, OD,
MOBILE VISION PROGRAM DIRECTOR

### 15 Years of Sharing

*Charitable Division*

Through donations and grants, QueensCare supports many other organizations in Los Angeles that provide various healthcare services to the working poor, the homeless and the indigent. In this way, QueensCare extends its assistance to AIDS / HIV patients; to those needing hospital emergency care; to students seeking scholarships to pursue a healthcare certificate or degree; and to patients needing transportation to medical appointments. Also, a critical part of QueensCare’s work is education on prevention, wellness and chronic disease management.

$1,713,203 has been given since the Gene & Marilyn Nuziard Scholarship and Loan Repayment Fund was established in 2005, for 226 scholarships and loan repayment awards.
15 Years of Compassion
Pastoral Care Division
Each day, QueensCare’s five chaplains visit patients at Hollywood Presbyterian Medical Center, bringing a sanctuary of spiritual compassion into the patient’s otherwise anxious and painful hospital experience. QueensCare chaplains come from various faith traditions and ethnic backgrounds – just as the patients they serve. At day’s end, you can hear Reverend One-Choul Rhau playing soothing spiritual songs on his harp for everyone on the floor as part of the Music Therapy Program he began in 2011. QueensCare chaplains also provide daily sacraments and liturgical services and work with hospital staff to provide support to the patients.

15 Years on the Streets
QueensCare Health & Faith Partnership
QueensCare Health and Faith Partnership (QHFP) is an outreach program strongly committed to taking healthcare into the neighborhoods of Los Angeles County. Parish nurses and community health workers provide health promotion and disease-prevention services in churches, temples, mosques, schools and other social service organizations – a model of parish nursing that has become nationally recognized. QHFP often collaborates with other organizations and recently successfully concluded a research project on creating access to depression care.

“When there are insurmountable barriers or clients who have no resources, the staff will keep searching for services/resources, never giving up until the best solution is found. I see them do this every week and it is amazing how much hope this gives to a person who is helpless or vulnerable.”
—SHARON SOPER, DMISS, PARISH NURSE MANAGER, QHFP

733,734
the number of people served by QHFP since 2001, with one-on-one nurse consultations, preventive screenings and many educational outreach activities.

“Chaplaincy is about being present. Presence is the key. Letting people know that a Chaplain is there doing God’s work, being a witness in the Medical Center and being there for patients and staff.”
—BR. LARRY J. MOEN, CMF, CHAPLAINCY DIRECTOR

630,000
estimated number of patients touched by chaplaincy over the last 15 years.

After 15 Years - Expanding Capacity

We are very excited that QueensCare is partnering with QueensCare Health Centers (QHC) to build a new, state-of-the-art East Los Angeles Health Center, scheduled to open in January of 2015. This site will consolidate QHC’s two existing East LA health centers, with double their combined capacities, as well as contain a large conference room to host health events and community meetings.

15 Years of Your Generosity

We are grateful for the many individuals, corporations and foundations that have given generously over the past 15 years and, in this way, have assisted in providing critical healthcare services for the underserved of Los Angeles County.

Your donation this year will go to support QueensCare operations - the mobile dental and vision programs for school children, QueensCare Health and Faith Partnership and our chaplaincy program. If you wish to donate for a specific program, kindly indicate so at the time of your contribution.

We thank you for your consideration.

Donations to QueensCare are tax-deductible. To contribute, you may visit www.QueensCare.org/donate or use the enclosed donation envelope.
